The faculty introduction (free of charge) will provide you with important and practical information about your Master’s degree. The first two activities (VUnet instructions and Campus Tour) are especially meant for students who are new to VU. If you have already followed a bachelor at VU, you can join for the ‘Introduction by master coordinator, FSR and study association’ and the drinks. If not, we recommend you to follow the full faculty introduction programme.

The study association Gyrinus natans has organized some additional introduction activities for new master students, which take place before the faculty introduction on August 26 and 27 (see below). If you don’t follow the introduction organized by the study association, you can gather in Gyrinus natan’s room before the start of the faculty introduction. If you want to join at ‘Introduction by master coordinator, FSR and study association’, then go to the indicated room.
